Downtown Abbey Fashions & Times of Mother’s Day Celebration

Allentown, PA – “The Fashions & Times of Downtown Abbey” will be the subject of a Mother’s Day Tea at the Lehigh Valley Heritage Museum on Saturday, May 7th at 10:30 pm. The announcement was made today by Joseph Carrera, Executive Director of the Museum.

“This is the perfect tribute to Mother’s Day and a fun and engaging way to learn about a fascinating era of history,” said Carrera. For six years, America tuned into the drama series Downtown Abbey to learn about the lives of the aristocratic Crawley family and their servants and friends. Set in the years just prior to World War I through the 1920s, Downtown Abbey reflected an era of dramatic change and upheaval. The series will feature a fascinating glimpse of the 1920s, much as the hit series Downtown Abbey Abbey has done.

The program will begin at 1:00 pm on Saturday, May 7th. At the conclusion of the program, guests can enjoy coffee, tea, and a special treat. “This is a great opportunity to celebrate Mother’s Day with a Mom or an other special person,” said Carrera.

Pre-registration and pre-payment are required to attend this event. Please call Alarrera Executive Director of the Museum at 610-435-1074 to reserve a seat. Please make an additional donation of $9 for non-members.

Gardens Growing As Green Alternatives To Lawns

(NAPS)—You don’t need much lawn to make the yard an enjoyable place. Many homeowners are replacing traditional grass lawns with vegetable gardens, an alternative to turf-grass while reducing maintenance time and utility costs compared to turf grass, which substantially increasing the sustainability of a home,” said ASLA President Gary Scott, FASLA. “Plus, there’s nothing more convenient or sustainable than homegrown food.

Food gardens can be a great way to keep children and adults active and encourage people to eat healthier. Additionally, many residents are replacing lawn grass with vegetable gardens, according to a survey by the American Society of Landscape Architects.

Food gardens can be easy, rewarding and sustainable. For example, even the most basic garden with chives, sage and tarragon returning every year can be a great addition to any yard. Food gardens are one of many ways by which landscape architects are helping create a more sustainable world.

The classified section of a newspaper is a potpourri of all kinds of advertising. No matter what you're looking for - cars, real estate, furniture, or just about anything else - you can find it in the classifieds.

Newspaper classifieds offer a unique opportunity to reach a targeted audience. Here are a few tips for making the most of your classified ads:

1. Keep it short and sweet. Your ad should be easy to read and understand. Try to keep your ad to one or two sentences.

2. Include all relevant information. Make sure to include the price, location, and any other important details.

3. Use keywords. Include keywords that potential buyers might search for, such as "used cars," "houses for rent," etc.

4. Include photos. Pictures can make your ad more attractive and help people visualize what you're selling.

5. Be honest. Be truthful about the condition of the item you're selling. People who buy from you will be more likely to return if you're honest.

Remember: you're only going to pay one bid more than someone else was willing to pay.
